In an effort to bridge the gap between Volunteers and those in need of Volunteer assistance, your Volunteer Center of Calaveras County has developed a Website to do just that. The construction and maintenance of this site is made possible through the generosity of our very own local web designer, Tom Bickle (tombickle.com).

The Volunteer Center assumes no liability for volunteers referred to any agency.

Agency shall be responsible for screening and conducting appropriate Volunteer background checks pursuant to Agency requirements and policies and as may be required by law.

Additionally, Agency agrees to share with The Volunteer Center, any 'Volunteer Data' as may be collected by Agency in their normal course of doing business (i.e: time, mileage, gender, etc.). Said data to be provided annually, when convenient for Agency.

It is the goal of the Volunteer Center to facilitate and encourage Volunteerism throughout Calaveras County whenever and wherever possible. Your input is critical to this mission, and we thank you in advance for partnering with us in our mission to encourage volunteerism throughout Calaveras County, for seeing the possibilities, and reaching out to make a difference!
